

The Federal Communications Commission

Dear The Federal Communications Commission,

<TEXT>I do not want to pay more for my phone service. The taxes already imposed on my telephone services is completely out of control. For instance a phone 10 years ago cost \$20. Now just to have a phone is \$40 a month, and of the double increase, more than half of it is due to taxes imposed from the government. If the government needs to make money, take the earned income credit away from people who don't deserve it. Don't tax our already outrageous phone bills even more!

Sincerely, An over taxed, outraged voter!  
Denise Manns Marysville, OH

Sincerely,

Denise Manns
